Profile Summary

Innovative and detail-oriented Web Developer with expertise in designing, coding, and deploying responsive and functional web applications. Proficient in modern JavaScript frameworks like React.js and Next.js, with experience integrating frontend interfaces with back-end systems and APIs. Demonstrates strong problem-solving, collaboration, and user-centric design skills. Actively upskilling in the latest technologies and committed to delivering high-quality, scalable solutions in fast-paced environments.

Education

Bachelor of Computer Science Leeds University, Leeds, UK Graduated: June 2012

- GPA: 3.6 (Upper Second-Class Honors)
- Network+
- CompTIA A+

Technical Skills

- Programming Languages: JavaScript (ES6+)
- Front-End Frameworks: React.js, Next.js
- Back-End Frameworks: Node.js, Express.js
- Databases: MySQL, SQL Server, MongoDB
- Version Control: Git, GitHub
- Web Technologies: HTML5, CSS3, SCSS, RESTful APIs
- Build Tools: NPX, NPM, Yarn, Vite
- Additional Skills: Agile methodologies, software design patterns, client-side state management (Redux, React Context)

Professional Experience

Network Support Engineer

Tech Domain | Remote | 09/2024 - Present

- Monitored IT systems using tools to ensure stability and performance.
- Troubleshot and escalated network, server, and infrastructure issues as needed.
- Managed IT asset inventory and ensured software compliance.
- Executed routine operational tasks, including backups and system audits.
- Provided technical support for PCs, servers, and peripherals, enhancing system uptime.

Freelance Web Developer

Self-Employed | Remote | 01/2024 -present

- Developed and deployed web applications using Node.js, React.js, and MongoDB.
- Configured and secured Linux-based web servers using Nginx on AWS infrastructure.
- Created efficient and responsive web solutions, achieving high client satisfaction.

Projects

Portfolio, Web Development, and Virtual Lab Projects: Designed and developed a personal portfolio site using HTML, CSS, and JavaScript, hosted on AWS with responsive design and performance optimization. Built multiple full-stack websites for clients using React.js, Node.js, and MongoDB to deliver tailored solutions. Created virtual labs simulating Windows Server environments, including Active Directory setup, user/group management, group policy configurations, and password policy enforcement.
